### Full Stack Developer Intern

June 1, 2024 - July 12, 2024

Meta CraftLab Pvt. Ltd.

Summer Internship Program 2024

- **Project: Document Generator**

Developed a web-based document generator tool that streamlines document creation.

Implemented responsive design using Tailwind CSS and built dynamic user interfaces with Svelte and SvelteKit.

- **Utilized technologies during the internship:**

Version Control: Git, GitHub.

Front-End: Tailwind CSS, Svelte, SvelteKit.

Back-End: Prisma.

- **Certification:**

Postman API Fundamentals Student Expert

## PROJECTS

### Movie Recommendation Application

Built a movie recommendation app using Python Flask and machine learning algorithms. Utilized collaborative and content-based filtering for personalized movie suggestions. The project highlights skills in python frameworks and machine learning integration.

Python Flask (framework), Database (IMDB)

## Airline Management System

Developed a beginner-level Airline Management System using Java with Swing and AWT for the front end, and MySQL Workbench for the back end. The system allows customers to register, book or cancel tickets, and check available flights. This project demonstrates proficiency in Java GUI development and database management.

Java (Swing, AWT), MySQL Workbench (Backend)

---

## Dice Game

Developed a two-player dice game. The game simulates dice rolls, where two players compete, and the player with the higher dice number is declared the winner.

HTML, CSS, JavaScript, and Node.js.

---

## Drum Kit

The Drum Kit web application includes various drums, each assigned a unique letter key. Users can play drum sounds either by clicking on the drums or pressing the corresponding keys on the keyboard.

HTML, CSS, JavaScript, and Node.js.

---

## TECHNICAL SKILLS

**Frontend Skills:** HTML, CSS, JavaScript

**Backend Skills:** SQL, NodeJS

**Version Control:** Git, GitHub

**Programming Languages:** Java, Data Structure & Algorithms, C/C++
